

# Adjustable Positioning Lanyard

MODEL: LYTPDS-2001-06FTD

Our Adjustable Positioning Lanyard sets a new standard in safety equipment, blending lightweight design with exceptional strength. It's crafted for efficient, one-handed operation, allowing for ease of adjustment without sacrificing security. The lanyard's cover is engineered for durability, offering abrasion and cut resistance while maintaining a smooth exterior. Its virtually non-stretch core ensures reliable, consistent performance under tension.

Versatile in its application, this lanyard doubles as a two-in-one positioning system, accommodating a range of uses with unmatched ease.

## Features & Benefits

- The dual-cam steel rope grab provides a secure, adjustable hold.
- Features a Proclimb™ ANSI double-locking snap hook.
- Includes a Chafe Master™ protective abrasion sleeve.
- Exhibits very little water absorption.
- Material: 3-Strand composite (RigMaster™).
- Capacity: 310 lbs.
- Diameter: 5/8".
