The Pelican Leash Lanyard *Premium Kernmantle Construction*

The Pelican Leash Lanyard is engineered for professionals who demand reliability in critical situations. Crafted from high-quality kernmantle construction, this lanyard provides the perfect balance of strength, flexibility, and durability. Whether you're working at heights, on a job site, or in any environment where equipment security is paramount, this lanyard delivers peace of mind. The kernmantle design ensures consistent performance, while the robust construction means you can trust it day after day.
