# The Pelican Leash Lanyard

*Versatile Positioning Lanyard*

**MODEL: A1S-14T4P-16AH (16 ft.) | A1S-14T4P-12AH (12 ft.)**

The Pelican Leash Lanyard is a high-strength, lightweight positioning lanyard designed for use in elevated positions or confined spaces. Its 32-strand construction ensures minimal stretch, featuring a smooth cover that is resistant to abrasion and incidental nicks, though it is not impervious to cuts or chainsaw damage.

Crafted at Pelican Rope's headquarters in California, this versatile positioning lanyard adheres to the ANSI safety standards for fall protection (ANSI Z359.3-2019) and arboricultural operations (ANSI Z133-2017).

## Features & Benefits
