SLING TECH 12™ 12-Strand Single Braid Rope

Family Code: 7PE2

The Sling Tech 12 is a 12-strand rope engineered for superior performance in sling applications, ensuring safe and efficient handling of loads. Its unique design allows it to conform to the contours of objects being lifted, providing a secure grip. Enhanced with our Pelican Tuff™ urethane coating, this rope offers increased durability by resisting abrasion, making it ideal for rigorous conditions. Not only is it stronger than traditional double braid ropes, but it also boasts easy splicing and low stretch properties, ensuring reliability and ease of use in professional settings like arborist work and heavy lifting.

Features & Benefits

- Pelican Tuff™ Urethane coating for abrasion resistance.
- Exceeds strength of double braid ropes.
- Simple and quick splicing capabilities.
- Minimal stretch for reliable performance.
- Ensures superior grip for safety.
- Polyester cover.
