

Tower Positioning Device

MODEL: USR-TPD

Designed to provide maximum support and stability, our Tower Positioning Device easily attaches to D-rings on Full Body Harnesses and to approved anchorage points, ensuring you are always firmly positioned for optimal performance.

Featuring a swivel hook carabiner and a double-locking snap hook, the USR-TPD offers superior reliability and durability. Whether you're working at serious heights or on a tricky slope, the USR-TPD will help keep you safe and secure every step of the way.
